Job Description			
Precision Group have been providing professional, managed services and innovative solutions to customers across the UK & Ireland for almost 40 years. We offer a diverse range of services including Facility Support, Building Services, Engineering and Industrial Support together with Environmental Solutions & Waste Management. Due to continued growth in Irish market, we are seeking an Asbestos Supervisor to help lead our Asbestos Division in Ireland. The Division provides a complete range of asbestos services from initial survey to removal and reinstatement across all industry sectors. Role and Responsibilities You will be responsible for ensuring compliance with Irish asbestos regulations, visiting sites to scope and cost works, building a client base including in the commercial and private sector, overseeing safe practices, and safeguarding the health and safety of employees, clients and the public. The successful candidate will possess in-depth knowledge of industry regulations, exceptional leadership capabilities and a strong commitment to maintaining the highest standards of safety and environmental responsibility. Ideally you will operate from a base in Dublin or central Ireland and have the flexibility to travel around the Country. Assistance will be given in set up and familiarisation with Precisions procedures and expectancy. • Contract managing asbestos removal projects • Assess potential contracts and pricing works including smaller domestic projects. • Planning of asbestos works; • Supervise and coordinate the team engaged in removing asbestos;			

- Assist in removal activities;
- Complete risk assessments, method statements and notifications.
- Monitor and inspect quality of work during projects;
- Inspect work site, alongside H&S Manager;
- Ensure that legislative requirements are maintained at all times;
- Deal with incoming sales enquiries and generate new business leads;
- Liaise regularly with clients and customers in a professional manner.

Qualifications and Education Requirements

The ideal candidate will hold the P402, P403, P404 or equivalent qualifications (although not essential) and will have experience in managing asbestos projects across a range of different industries.

- Previous experience working within the asbestos industry is essential.
- Strong asbestos removals, contracts and management background.
- Sound technical knowledge and experience on site.
- Thorough understanding of Irish asbestos and Health & Safety regulations, guidelines and best practices.
- Awareness and understanding of operational targets.
- Excellent organisational skills.
- Good communication skills, both written and verbal.
- Full Drivers licence.
